

# PROJECT STRUCTURE

Date 09 November 2022

Team ID PNT2022TMID33174

Project Name Project – A Gesture-based Tool for Sterile Browsing of Radiology Images

Create a Project folder which contains files as shown below

Dataset folder contains the training and testing images for training our model.

We are building a Flask Application which needs HTML pages stored in the templates folder and a python script app.py for server side scripting

we need the model which is saved and the saved model in this content is gesture.h5

The static folder will contain js and css files.

Whenever we upload a image to predict, that images is saved in uploads folder.
